A smile brings rest to the weary, cheer to the discouraged, and sunshine to the sad. You can only imagine what a "healthy and happy" smile can bring to the world.

The Rotary Club of Grand Prairie has worked since 2000 to bring healthy smiles to the students of the Grand Prairie Independent School District. This service project, which is solely run and funded by our club, has donated over $3 million in dental services to these students. Our program provides oral hygiene instruction, nutritional counseling, comprehensive oral exams, and finally preventative pit and fissure sealants are placed on all decay-free permanent teeth. The Grand Prairie Independent School District nurses and teachers contribute their time and effort to make this successful and sustainable.

Why do we do it? Dental disease causes almost 1 million missed days of school, 25% of first time visits to the emergency room, malnutrition, and other illnesses linked to poor oral health. Dental disease is the most prevalent, yet treatable and preventable childhood illness.

Our annual golf tournament is the funding mechanism for this endeavor. Without the generosity of our Rotarians, sponsors, and golfers, these children would not be served. Thank you for your support as all the students of the GPISD say thank you. Please make the commitment and join us for a great day of golf, fun, and charity.

Dr. Janelle Bicknell
